

## Crucial Conversations FOR ACCOUNTABILITY

# MANAGING PERFORMANCE IS MORE THAN A PROCESS—IT'S ABOUT PEOPLE

Sure, there are fancy software and tools to make performance management seamless and easy. But any manager who's struggled to close a significant performance gap or anyone who has ever walked out of an annual review feeling like they've just been processed rather than prioritized knows there's nothing easy about it. Deflated and disenchanted people don't improve, and neither do results.

In reality, performance management is about addressing your people's behavior routinely and consistently. It's about candidly coaching through challenges and holding people accountable for lapses in behavior. It's about identifying goals, fast-tracking careers, and in the process, improving your bottom line. These are communication skills—the difficult kind that may not come naturally, but when learned, mean the difference between managing people and managing process.

The good news is these accountability skills are replicable and learnable. **We're all just a few crucial skills away from learning how to manage people and performance daily and directly.**

Crucial Conversations for Accountability is an engaging classroom course rich with group discussion, real-time practice, and group support and coaching. Delivered in one or two days, this in-person course offers the best in traditional learning and development.
